2. RATINGS

The Notes to be issued are expected to be rated:

Ratings:

Standard & Poor's: BBB-

In accordance with Standard & Poor's ratings definitions available as at the date of these Final Terms, an obligation rated 'BBB-' exhibits adequate protection parameters. However, adverse economic conditions or changing circumstances are more likely to weaken the obligor's capacity to meet its financial commitments on the obligation. Ratings from 'AA' to 'CCC' may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the rating categories. (source: https://www.standardandpoors.com/en_US/web/guest/article/-/view/sourceId/504352).

Fitch: BBB-

In accordance with Fitch's ratings definitions available as at the date of these Final Terms, obligations rated 'BBB' indicate that expectations of default risk are currently low. The capacity for payment of financial commitments is considered adequate, but adverse business or economic conditions are more likely to impair this capacity. An additional +/- for AA through CCC levels indicating relative differences of probability of default or recovery for issues (source: <https://www.fitchratings.com/products/rating-definitions#ratingscales>).

Moody's: Baa3

In accordance with Moody's ratings definitions available as at the date of these Final Terms, an obligation rated 'Baa3' are judged to be medium-grade and subject to moderate credit risk and as such may possess certain speculative characteristics. Moody's appends numerical modifiers 1, 2, and 3 to each generic rating classification from Aa through Caa. The modifier 3 indicates a ranking in the lower end of that generic rating category (source: <https://ratings.moody's.com/rmc-documents/53954>).
