About EP Infrastructure ("EPIF")

The EPIF Group is a European energy infrastructure utility focused on gas transmission, gas and power distribution, heat and power generation and gas storage. With principal operations in the Slovak Republic and the Czech Republic, the EPIF Group is a unique European entity with a large and diversified portfolio of strategically important infrastructure assets. Measured by EBITDA, the EPIF Group believes it is among the five largest industrial groups based in the Czech Republic.

EP Infrastructure operates critical energy infrastructure through various subsidiaries in four principal segments: gas transmission, gas and power distribution, heat infra and gas storage.

The EPIF Group highlights

- The EPIF Group holds approximately a 49 per cent. stake in, and has management control over, Eustream. The transmission network of Eustream is part of the Central Corridor which is the largest and the most important piped gas corridor for deliveries of Russian gas to Western, Central and Southern Europe.
- The EPIF Group is an important gas and electricity distributor in the Slovak Republic and is a major distributor of heat to final consumers in the Czech Republic.
- The EPIF Group holds the largest gas storage capacity in the region of Slovakia, Czech Republic and Austria and also holds significant share on the German market.
